# Ian Benedict Borla
Web Developer

Hi there! I'm glad that you have time to read this, by the way I am Ian Benedict Borla, an expert in Web Development, mastering and honing my web development skills in PHP scripting language. It has been a long time since I started writing codes, from the time I made my own windows application up to the point that I was able to publish a website, and the rest is history...

Experience

Quality Assurance Analyst / Aug. 2012 - Nov. 2012
Teleperformance

After 8 months of effort, I just to move up to another position, I applied for a QA post, luckily I was able to get it. So cheers for that.

QA / Reports Analyst / Nov. 2012 - 2014
Teleperformance

After 2 months of being a QA, our QA Manager, assigned me to be the Reports Analyst, my tasks are to create an automations to our reports, to save time on creating daily reports that usually took 1 hour to make manually, then, after the automation, we were able to cut down the 1 hour task to 5 minutes.

Senior PHP Developer / 2015 - Current
Melis Technology

I am currently working here! Doing our best to create the best platform that would compete to the other web platforms out there. And yes! It's an open-source.

Education

Associate in Computer Technology / 2011
Northeastern Cebu Colleges

Bachelor in Science and Information Technology / 2015
Northeastern Cebu Colleges
